

2026 PRODUCT OVERVIEW

HK BLADETECH

Industrial Machine Knives & Blades

English product overview · Existing HK catalog part numbers · Model-specific fit confirmation

Granulator Blades

Shredder Blocks

Circular Slitter Knives

Corrugated Knives

ABOUT THIS OVERVIEW

Industrial blade supply

Product listings drawn from the existing HK BladeTech website catalog.

Manufacturing in Ma'anshan. International service from Hong Kong.

HK BladeTech lists replacement and custom industrial machine knives for recycling, shredding, packaging and converting equipment. This PDF lists 52 current website entries using their HK catalog part numbers. It is a dated product overview; consult the online catalog for the current selection.

32**Granulator Blades**

Cumberland, Nelmor, Rapid, Conair, Ball & Jewell

9**Shredder Blocks**

Vecoplan and Weima references

10**Circular Slitter Knives**

Multivac, Maxcess Tidland and Dusenbery references

1**Corrugated Knives**

Custom manufactured listing

How to use this catalog

HK catalog part numbers identify website listings; they are not OEM part numbers. Confirm the machine model, part position and approved drawing before ordering. Request a current drawing, quotation and availability confirmation for the part you need.

GRANULATOR BLADES · CUMBERLAND

Cumberland | Core models

Rotor and bed knife listings for compatible 1012, 1216 and 1828 models.

PRODUCT LISTING	HK CATALOG PART NO.

CATALOG LISTING IMAGE

Multivac® compatible single-bevel circular packaging knife

HK-MUL-79915200900

Image associated with this product in the current website catalog.
Confirm fit against the machine drawing.

For circular knives, confirm outside and bore dimensions, bevel side, mounting details and required material against the approved specification.

CORRUGATED KNIVES · MATERIALS

Custom knife requirements

The current website contains one custom corrugated knife listing. Material and geometry must be confirmed for each enquiry.

PRODUCT LISTING	HK CATALOG PART NO.
Custom Manufactured Corrugated Knives	HK-CORR-CUSTOM

01**Machine & position**

Identify the equipment model and where the knife is installed.

02**Drawing & geometry**

Provide the approved drawing or sample, hole pattern and edge profile.

03**Material & duty**

State the specified grade and hardness, or describe the feed material and operating conditions for review.

Material options are specification-dependent

Some existing website entries name grades such as D2 or M2. This overview does not assign any grade, hardness or tolerance to a different part. Confirm material availability and acceptance criteria before ordering.

ORDERING INFORMATION

Confirm the part before ordering

A short enquiry checklist for replacement or drawing-based knives.

1**Identify**

Machine make, model and revision; rotor, bed, counter or slitter position; existing HK catalog part number if known.

2**Document**

OEM part number if available, approved drawing or sample, clear photographs and installed orientation.

3**Specify**

Dimensions and tolerances from the drawing, mounting pattern, bevel or edge geometry, material requirement and quantity.

4**Confirm**

Have the part drawing, material, fit and any inspection requirements agreed before production or purchase.
